Subject: CMKL University Promotion

To Whom It May Concern,

Warm greetings from CMKL University.

CMKL University was established as a collaboration between Carnegie Mellon University (CMU) and King Mongkut's Institute of Technology Ladkrabang (KMITL) in 2017. The university will provide cutting-edge engineering research and education in Southeast Asia. By bridging world-class partnerships with local context, CMKL makes technologies accessible to the society and creates innovations that will benefit Thailand and the Southeast Asia region.

CMKL University offers both undergraduate and graduate levels as follows: 1) Bachelor of Engineering in Artificial Intelligence and Computer Engineering, 2) Master of Science in Electrical and Computer Engineering, 3) Master of Science in Technology and Creative Innovation, and 4) Doctor of Philosophy in Electrical and Computer Engineering.

On behalf of CMKL University, I would like to kindly request for your assistance to publicize our programs through your communication platforms for those who are interested in the fields. Moreover, the university also offers scholarships (worth up to 2 million baht) for eligible students.

At the moment, the application for our AiCE program is now open from January 29 to April 8, 2022. I also attach the posters with this letter.

Thank you so much in advance. If you have any inquiries, please do not hesitate to contact me: Tel: +666-1394-0500; email: tatchakrit@cmkl.ac.th.

Best regards,
Tatchakrit M.
