## Our Leadership

### Board of Trustees

**Prof. Dr. Surakiart Sathirathai**  
Chairman of the Board

Chairman of the Executive Board of Friends in need (of "PA") Volunteer Foundation  
Chairman of the Asian Peace and Reconciliation Council

**Prof. Dr. Suchatvee Suwansawat**  
Vice Chair of the Board

President, King Mongkut's Institute of Technology Ladkrabang  
President, Council of Engineers Thailand

**Dr. Alfred Gusenbauer**  
Trustee

Former Chancellor of Austria  
Chairman of Supervisory Board, Strabag SE

**Prof. José M. F. Moura**  
Trustee

Philip L. and Marsha Dowd University Professor, Carnegie Mellon University  
Former President of IEEE

**Dr. Thapana Sirivadhanabhakdi**  
Trustee

President and CEO, Thai Beverage Plc.

**Dr. Vanus Taepaisitphongse**  
Trustee

Chairman of the Executive Committee, Betagro Group

**Prof. David W. Kennedy**  
Trustee

Manley O. Hudson Professor of Law, Harvard Law School  
Director, Institute for Global Law and Policy

**Dr. Allan E. Goodman**  
Trustee

President and CEO, Institute of International Education

**Dr. Jaroondech Janjarussakul**  
Trustee

Chair of Institute Promotion Committee, KMUTL

**Assoc. Prof. Dr. Supan Tungjitkusolmun**  
Secretary

President, CMKL University

# What is B.Eng. in AiCE

## What We Focus On ?

**A** **AI Engineering**

Learn to engineering and implement AI systems in impactful contexts. Adopted Carnegie Mellon University's Software Engineering Institute for AI Engineering Initiatives to build 3Es at AiCE

- Engineering Experts
- Entrepreneurial Innovators
- Ethical Leaders

**i** **Intelligence APEX Supercomputer**

Access resources include APEX supercomputer to enable computation at scale. APEX AI Supercomputer, first & largest node in university AI research infrastructure in SEA in partnership with NVIDIA and DDN

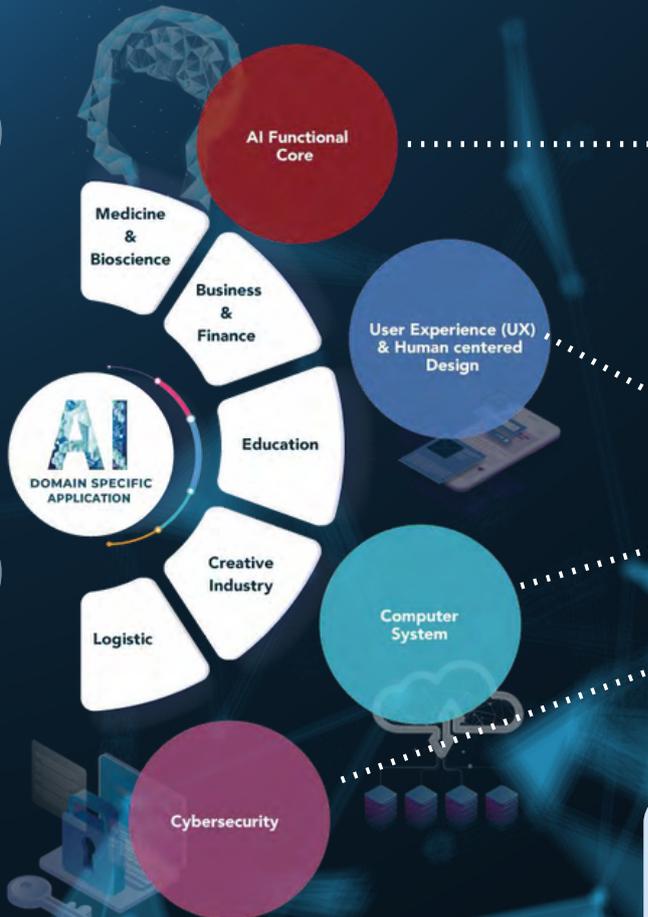

**C** **Competency-Based AI Curriculum**

Tailor your education to your unique needs and interests through a competency-based curriculum  
Continuous Assessment : On-going assess based on proof of mastery, What you can do, not what you can remember

**E** **Ecosystem Access for AI Innovation**

Access to the CMU ecosystem. Exchange/ Internship programs at Carnegie Mellon University, USA for 1-2 semesters  
Joining Technology Trends workshops/ seminars at world top company in the US

# AI Engineering

## AI Engineering\*

AI engineering is an emergent field of research and practice that combines the principles of software engineering, systems, computer science, and human-centered design to enable implementation of AI systems in accordance with human needs for mission outcomes. While much work to date has focused on AI capability development, AI engineering asks what is needed to develop, deploy, and maintain AI systems in unpredictable and chaotic environments.\*

## Pillars of AI Engineering

- ⚙️ **Human-centered AI:** Key to the implementation of AI in context is a deep understanding of the people who will use the technology. This pillar examines how AI systems are designed to align with humans, their behaviors, and their values.
- ⚙️ **Scalable AI:** Effective AI systems require large investments of time and money to develop. This pillar examines how AI infrastructure, data, and models may be reused across problem domains and deployments.
- ⚙️ **Robust and Secure AI:** One of the biggest challenges facing the broad adoption of AI technologies and systems is knowing that AI systems will work as expected when they are deployed outside of closely controlled environments. This pillar examines how we develop and test resilient AI systems.

“AI Engineering is an emergent discipline focused on developing tools, systems, and processes to enable the application of artificial intelligence in real-world context.”

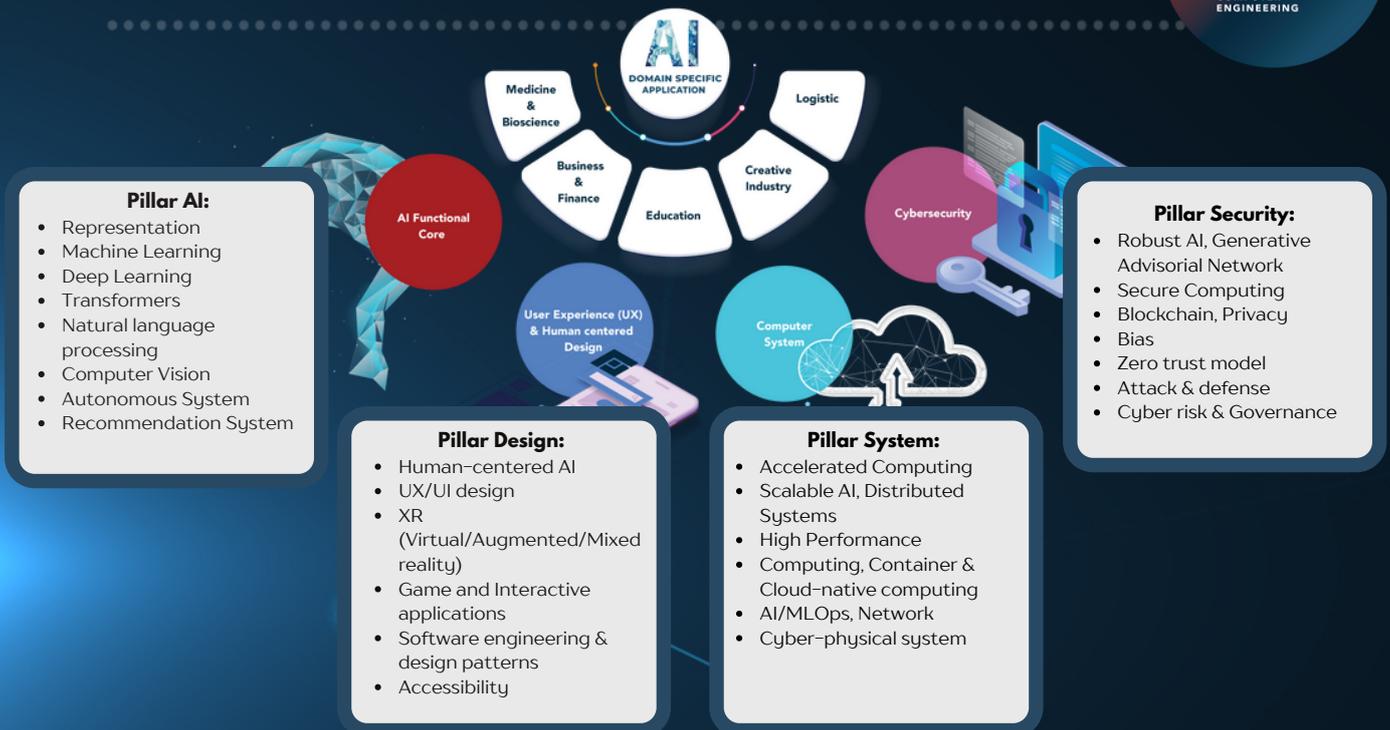

- National AI Engineering Initiative, Software Engineering Institute

\* AiCE Curriculum designed to support AI Engineering Initiative by Carnegie Mellon Software Engineering Institute. CMKL University is a licensed SEI Partner providing official SEI services in CERT/CC suite.

SEI Partner Network

# AiCE Curriculum

## Entrepreneurship and Professionalism Thread : "Integrative Skills"

Continuing Professional Development / Communication / Teamwork / Economic Considerations / Privacy and confidentiality / Ethical Considerations / Legal considerations / Intellectual property / On Automation

"Innovation Projects"

"Deep-Tech Projects"

"AI for Society"

## The Power of 3

### 3Cs Learning Environment

- **Cohort** - having a strong sense of community and peers/support.
- **Colleague** - connect with colleagues of different backgrounds and expertise (MS/PhD, engineers, partners)
- **Coach** - Learn from world-class professors who will accompany your journey ensuring your academic and professional success.

### 3Es Graduate Traits

- **Entrepreneurial Innovators** : for self-starting individuals who are eager to pursue their own businesses or startups.
- **Engineering Experts** : for students who want to dive deeper into a higher level of AI study and building cutting-edge technology.
- **Ethical Leaders** : for students who want to be future leaders / policy makers, creating positive impact with solid technical background

**AiCE**  
3\*3\*3

### 3Ps Integrative Skills

- **Innovation Projects**: Student-driven project: the students can choose to start the project based on their passions/interests
- **Deep-Tech Projects**: Cutting-edge technology driven by industry.
- **AI For Society Projects**: AI for Social Good Projects: Create AI projects that are beneficial to society.

# AiCE Curriculum

## AI Engineering

### PERSONALIZED LEARNING CURRICULUM

**3-YEAR ACCELERATED  
STUDY PLAN IS AVAILABLE**

**ACCESS TO THE BEST IN-CLASS FACILITIES  
AND AI SUPERCOMPUTING.**

**JOIN EXCHANGE PROGRAM AT  
CARNEGIE MELLON UNIVERSITY**

Our competency-based AI and Computer Engineering program is created by academics in collaboration with industry professionals to guarantee that you obtain relevant skills to help you stand out in the AI Engineering field and advance your career at your own pace.

**Accelerate Your Development of Competence  
Through A Self Paced Personalized Learning**

#### **REAL-WORLD TASK**

A task that measures your knowledge through industry-driven practical application in real world context.

#### **BITE-SIZED MODULE**

Chunking course content into modules. A flexible way of learning. More personalized.

#### **COMPETENCIES**

Knowledge, skills and dispositions that students are expected to gain from a bite sized learning module.

#### **CONTINUOUS ASSESSMENT**

An on-going assessment that students' mastery of competencies will be evaluated throughout their journey.

#### **MASTERY**

Students are evaluated based on how well they demonstrate each of the criteria of task assigned.

#### **COMPETENCY DECK**

A personalized dashboard that shows students their academic progress on each competency.

#### **RECOMMENDATION**

Mentors select the next task for the learner, give a challenge in areas not yet mastered, and practice.

#### **PEER-LEARNING**

Learning partnerships, promotes collegiality and develops a sense of mutual accountability among the students.

#### **WE BUILD**

Engineering Experts  
Entrepreneurial Innovators  
Ethical Leaders

# APEX Supercomputer

## National AI Research Platform & Data Exchange

R&D Support from PMU-C; Office of National Higher Education Science Research and Innovation

Policy Council (NXPO); Ministry of Higher Education, Science, Research and Innovation

### •Apex - AI Supercomputer

- First & largest node in university AI research infrastructure
- Partnership with Nvidia and Data Direct Network

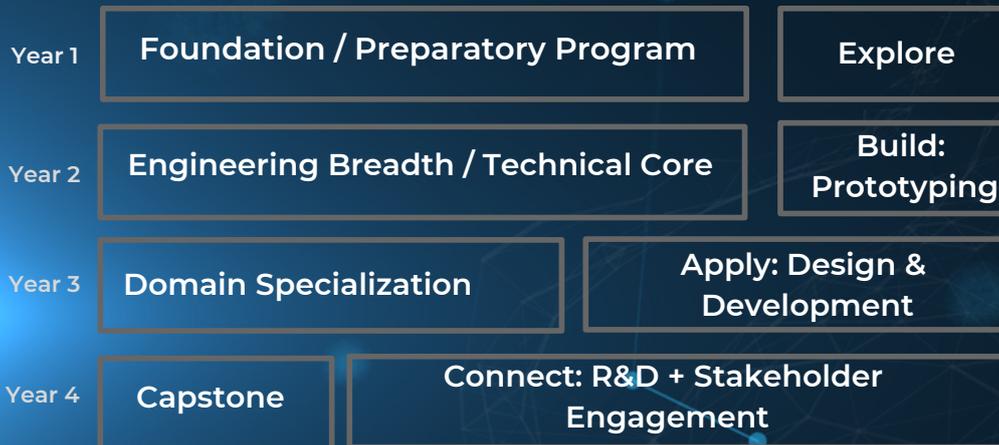

### •System overview

- 30 petaFLOPS AI (FP16) / 936 teraFLOPS (FP64)
- 1920 CPU cores / 48 A100 GPUs
- 7.3 TB system memory + 1.92 TB GPU memory
- 3 PB storage
- 100 GbE Open Ethernet

# AiCE Curriculum

## AiCE Program Experience

## 3-year Accelerated Study Plan

“The three-year accelerated study plan is a great way for a motivated student to earn a B.Eng in AiCE a shorter span of time, particularly for those who enter CMKL with Pre-matriculant credits such as Advanced Placement, International Baccalaureate, or college credits earned during high school!”

## Exchange and Internship @ CMU/CMKL

- Opportunities to participate in world-class research groups which often collaborate with various industries. You have opportunity to get hands on experience of the world of research.
- A chance to study in prestigious undergraduate classes for a semester or participate in a summer research internship. You will earn experiences at Carnegie Mellon University.

# AiCE Curriculum

## Experiential Learning Through R&D Research

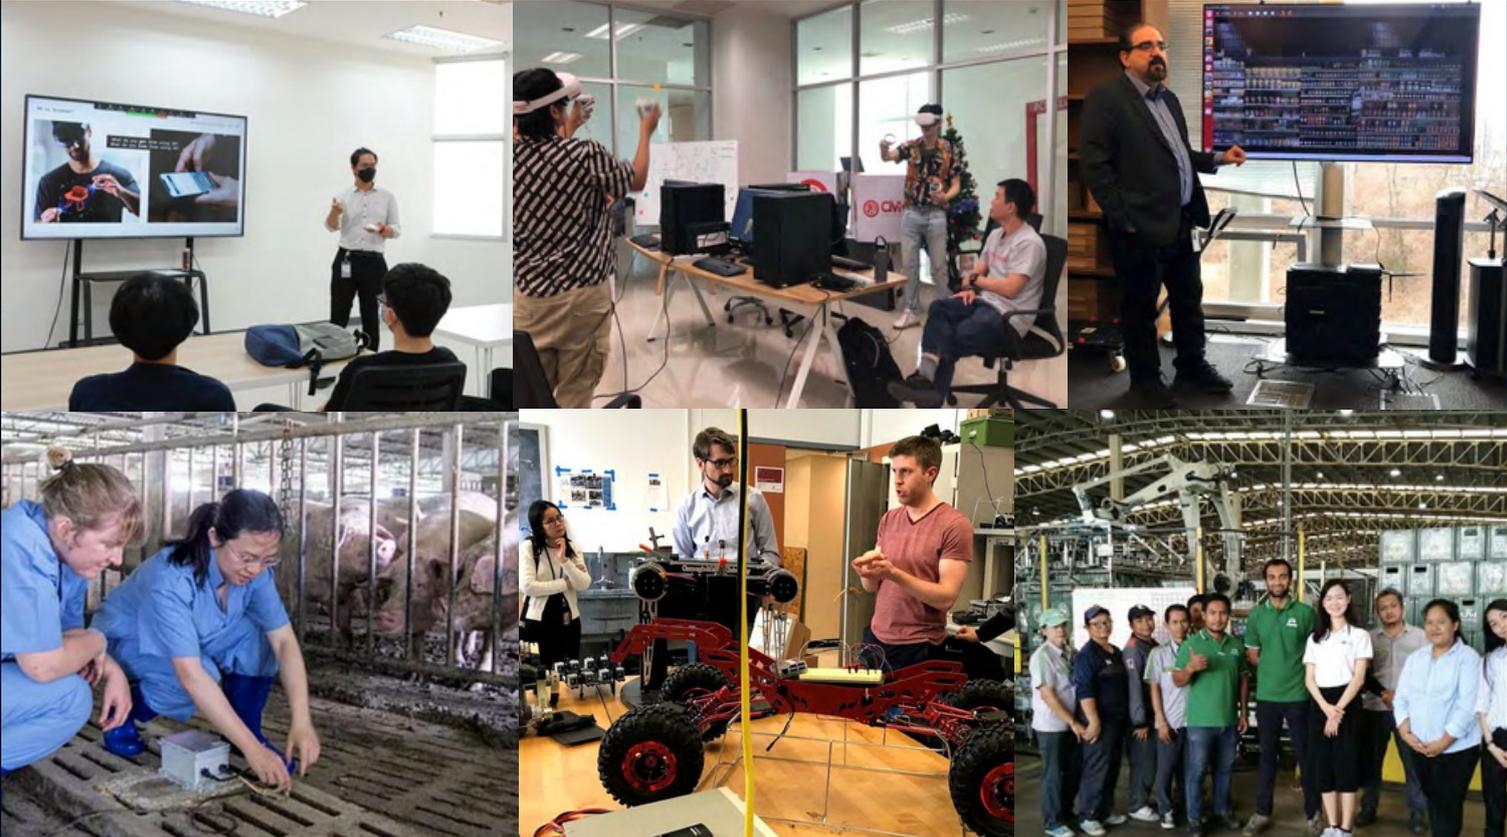

Our students have an opportunity to participate in projects with leading industries and tech companies. At CMKL, students will have a hands-on experience while networking with professionals in the field, preparing them for their future careers.

### OUR PARTNERS

**Centers of Excellence**  
(workshop, training, share technical knowledge and use-cases with the communities around the world)

Improve AI algorithms for better performance and faster with their open source initiatives in many areas e.g. images recognition, video processing, speech recognition, etc.

Accelerate I/O Performance for AI Applications with their open-source filesystem

# Destination for AiCE students

What are the job opportunities in the field?

## Where AiCE Will Take You

AiCE curates relationships, educational experiences and resources to help you succeed in the job market upon graduation. Collaborative projects and research will put you in contact with industry experts and alumni so you can envision your future.

MS/PhD in ECE  
Carnegie Mellon University

Electrical & Computer  
**ENGINEERING**

## TOP CAREERS

- AI/ Machine Learning Engineer
- AI Data Analyst
- Data Engineer
- Computer vision engineer
- Algorithm developer
- Developer consultant
- Cyber Security
- Big Data Engineer
- Software Engineer
- Systems Engineer
- Data Scientist
- UX Engineer
- MLOps Engineer
- Operations for Human-AI Interactions
- Startup Founder

# AiCE Admission

## Important Dates & Timeline

### Early Enrollment\*

Application	Deadlines	before January 15
Interview Date		within 3 weeks of completing the application
Notified by		within 4 weeks of completing the application
Enrollment confirmed by		within 3 weeks after receiving the decision notification

### Early Decision

Application	Deadlines	November 1
Interview Date		November 13
Notified by		December 15
Enrollment confirmed by		February 1

### Regular Decision

Application	Deadlines	January 15
Interview Date		January 29
Notified by		No later than April 1
Enrollment confirmed by		May 1

### Regular Decision 2

Application	Deadlines	April 8
Interview Date		April 23
Notified by		No later than May 2, 2022
Enrollment confirmed by		May 9

# AiCE Admission

## Required Application Materials

- Common Application
- Application fee
- Official High School Transcript
- SAT/ACT Score (Optional) CMKL University SAT CEEB Code is 7791.
- Computer Science Proficiency (Optional):
  - CS50 Certificate or
  - AP Computer Science or IB/A-Level equivalent or
  - Hackerrank test
  - CMKL Intro Programming
- English Proficiency Requirement:
  - TOEFL iBT > 102 (University ETS code is C532) or
  - IELTS > 7.5 or
  - Duolingo English Test (DET) > 105 (Recommended)
- Statement of Purpose
- Two Recommendation Letters

## AiCE Club

Up to date with our CMKL innovations and projects. Be the first to know about our upcoming events and activities. Join special talks, events and workshops. Get to talk & learn exclusively with our staff and engineers! Be in touch and network with the experts in the field along with professors from world's top universities
